Amadelio is an online-interview broadcast about people from art, culture, economy and science. To no longer miss an interview, you may download them from our archives.

Recent interview: Carla van de Puttelaar °The beauty of women°

In our interview Carla talks about Nobuyoshi Araki and Diane Arbus and about her own work. Her big theme is the beauty of women. Her models are not made for the covers of the high gloss magazines for they aren't perfect. In other words their „stain“ is what Carla van de Puttelaar finds so beautiful about them. In her detailed pictures you find fragil beings with closed eyes and mostly with pale skin. Every picture is art, without flash light and very touching.
