One Step Acne Solution, the only over the counter acne medication with antibiotics. Announced the launch of their affiliate program today.

Boise, ID - 12/27/05

Mark White, marketing director for One Step Acne Solution announced the launch of the new One Step Acne Solution affiliate program today. One Step Acne Solution is the first and only over the counter acne medication with antibiotics.

Acne effects approximately 85% of people between the ages of 12 to 24 . Adult acne can effect people into their forties. Nearly 17 million people in the United States suffer from acne, making acne the most common skin disease. One Step Acne Solution is an effective acne treatment for acne patients of all ages.

Acne results from the action of hormones on the skin's oil glands, which leads to plugged pores and outbreaks of acne lesions commonly called pimples or zits. Acne lesions usually occur on the face, neck back and shoulders.

"We have seen a dramatic improvement with acne patients of all ages after consistent use of our new product, One Step Acne Solution," states Dr. Carl Thulin. Thulin further states that "One Step Acne Solution is available on line, (www.onestepacnesolution.com) and we will be offering co-marketing and affiliate programs to selective wholesalers and retailers.

Mr. White further stated that by adopting the affiliate model of marketing, One Step Acne Solution would be able to hold their prices down. Passing the savings in the marketing budget to the consumers of One Step Acne Solution. For further information go to www.onestepacnesolution.com.
