

## Largest Results For Clients In Company's History

Date: 25.04.2008 - 09:45

Category: [IT, New Media & Software](#)

Press release from: [USA SEO Pros](#)

USASEOPros.com Sees Largest Results For Clients In Company's History.

In quarter 1 of 2008 USASEOPROS controlled over 600,000 first page placements for its clients. Marking a 70% increase over the same quarter in 2007. This can not be wholly contributed to new clients as current clients are seeing 30 to 40% improvement in their SEO (search engine optimization) campaigns. There are two primary factors that have lead to this increase. First, a more robust and complex SEO campaign system and marketing engine combined with extremely strong content regulations within USA SEO PROS.

USA SEO Pros has been in business for over 6 years, has developed some of the best sites on the Internet, and has an extensive background of satisfied SEO clients. In fact, we manage over 100 internet marketing campaigns for a range of clients in various product and service industries. Our highly skilled team of specialists has a proven track record of SEO success, spanning many years and dozens of satisfied clients. Other SEO companies may simply use software programs to do the work for them, with little understanding or concern for the work itself. We believe that personal knowledge and experience are far more important. Software applications are a good tool, but they are just one ingredient to a much larger recipe.

Many SEO companies use underhanded, sneaky techniques in order to achieve higher rankings. These techniques never work for long, and ultimately end in having the "optimized" site banned from the search engines for using these tactics. Not only has the client lost their initial investment, but they are also left with a banned domain name and abysmal search engine rankings. UsaSEOPro makes sure to use techniques that work WITH the search engines, not against them.

Additionally, USA SEO Pros will provide an unparalleled degree of personalized service. Your representative will speak directly to, and work closely with, our SEO specialists assigned to your site. Our professionals take a lot of pride in the work that they do, and we take the time to understand your business, your competition, and your buyer`s searching habits.
