

TOPEX welcomes you at GSMA Mobile World Congress Barcelona, 16-19 February

Date: 02.02.2009 - 14:39

Category: [IT, New Media & Software](#)

Press release from: [TOPEX](#)

Agency: **TOPEX**

TOPEX, the innovative European telecommunication company, is pleased to invite you between the 16th and the 19th of February to GSMA Mobile World Congress Barcelona 2009, one of the largest telecom events in Europe.

The first exhibition on TOPEX agenda for 2009, Mobile World Congress Barcelona is the world's premiere meeting place for the global mobile industry. The Mobile World Congress is about providing the ideal personal experience and environment for networking with a select circle of mobile professionals who can positively impact your business.

Being exhibitor for the second consecutive year at this event, TOPEX intention is to expand the business worldwide and to promote its portfolio in front of international companies present at this show.

“We view Mobile World Congress as a strategic exhibition for us, being a great opportunity to prove our commitment to quality and our continuous efforts for development in the IP area.”, said Mr. Constantin Dumitrescu, Sales and Marketing Director. “We would be delighted to present our TOPEX VoisTel, winner of Internet Telephony Magazine's 2008 Product of the Year Award and we look forward to meeting with prospective customers and channel partners.”, added Mr. Dumitrescu.

TOPEX attention at this year's fair will be focusing on launching a new product, TOPEX VoxelPlus Advanced, a cellular gateway that enables cost-efficient connectivity between GSM, VoIP, ISDN and analog networks. The company will also present its complete NGN solution based on Class 4 and Class 5 Softswitch and its advanced range of media gateways. TOPEX multiSwitch is situated in the center of the TOPEX Next Generation Networks architecture and it is a flexible solution intended for small and medium companies who intend to offer voice services to their clients on a pay as you grow basis. Another product proposed by TOPEX for this event is the HSDPA Bytton Router which incorporates innovative features such as the DUAL SIM technology which permits the unit to automatically switch networks in the event of one network failure, IPsec VPN, L2TP, PPTP tunnels over the internet with complete security.

You are invited to reach detailed information about what TOPEX can offer in terms of products, solutions and services visiting TOPEX stand 2.1C57, in Hall 2-1, between 16th and 19th of February 2009 at Mobile World Congress Barcelona.

About TOPEX:
